## Look For Me Baby

## **Fiction Family**

What you hold dear Starts to disappear You can tell what you trust By the things that you fear

You can look for me, baby Oh baby, I'll be long gone

Who warned you You white washed hue? To flee from the raft As all men do

You can look for me, baby Oh baby, I'll be long gone

Everybody knows, everybody knows That I'm the fight, that can only end it blown You can say I showed a go That I only go to shows

Yeah, you can give my regards To your house of cards You're dead end stars And your pharisee shards

You can look for me, baby Oh baby, I'll be long gone

(Look for me, baby)
Oh baby, I'll be long
(Look for me, baby)
Oh baby, I'll be long gone
