

When She's Near

Fiction Family

My cover is blown
I'm faded and dreary
when my love is away
My cover is blown

When she leaves me alone
I'm weathered and weary
The nights are the days
when my love is away

When she's near the new new years here
and there's not a resolution I can't do
I see things clearly when she's near me
when she's near me all the world is new

when life has me vexed
I'm stop thinking clearly
I can get so afraid
that I push her away

repentance is next
I miss her so dearly
See those nights are the days
when I push her away

When she's near the new new years here
and there's not a resolution I can't do
I see things clearly when she's near me
when she's near me all the world is new

I'm waiting for the day when
I am on her mind
(cause she's on mine)

I'm waiting for the day when
love's no longer blind
blind
