

Folk's Not Dead

Fiddler's Green

Those Days

We mooched around counting the girls go by
We wasted the time and let the sun shine
Those days we hung out with friends
And so we dirted our face but now we rise up again

These Days

We've reached the top of the stage facing the good times
And we follow the road get on a hookline
And boys we fiddle around forever sticking it out
Together we sing along, we sing along, you sing along!

Folk's Not Dead! So rise up higher
Folk's Not Dead! And we take off now
Folk's Not Dead! Let's get our skates on
Folk's Not Dead! For singing louder

Those Days

When we cruised around and got the wrong lines
And we don't give a damn about the bad signs
So we went down the drain
Acting like dirty dweebs but here we stand up again

These Days

When we kick off the ball having a good day
And we fight for our rights taking the big pay
Boys we are as one so let's get out and about
Together we sing along, we sing along, you sing along!

Folk's Not Dead! So rise up higher
Folk's Not Dead! And we take off now
Folk's Not Dead! Let's get our skates on
Folk's Not Dead! For singing louder

Folk's Not Dead! (7x)

Folk's Not Dead! So rise up higher
Folk's Not Dead! And we take off now
Folk's Not Dead! Let's get our skates on
Folk's Not Dead! For singing louder

Folk's Not Dead! (5x)
