Give Me the Time

Fiddler's Green

Look at the sky it's shining
Look at this brilliant blue
Out of this world I'm flying

Finding my way to you

This is the year 2000
And nobody really cares
Caus' there is no time for love songs
Nobody really dares

We were rising so high
Into the roaring sun
There was a big big world
And it had just begun

Yeah rising so high
Maybe too high to breathe
Our love suffocated
Oxygen underneath

Everything seems lost and I can see the gods of pain
They tell me that it's just begun
A thousand years of scarlet rain

Give me the time
When I was wrapped in faith and confidence
Give me the time
When I was wrapped in my own ignorance
I was a little king
Living in his little world
Won't you give it back to me now

Look at the sky it's shining
Look at this brilliant blue
Out of this world I'm flying
Finding my way to you
