

Don't close your eyes  
You see them when you watch TV  
Their stupid lies against a poor minority  
So count me out  
I'll never march among their crowd  
Don't count on me  
Cause I'm all fascists' enemy

I don't care about the colour of your skin  
I don't care from where you come  
Or where you've been  
Their point of view is not what I call liberty  
Their stupid hate, it terrifies and frightens me

Ireland is my inspiration  
Don't give a fuck for segregation  
Don't count me to their load of crap  
I'll never be a living dead, oh no

We drain our glass with every nation  
Don't give a fuck for segregation  
And Mehmet is a friend of mine  
We drink together feelin' fine, oh yeah

Don't spend the night with a fascist  
Better spend the night with us  
Don't throw a stone, don't be a racist  
If you ain't got a job don't join that mob
