

# I'll Be There

Fiddler's Green

Driving home no speed limit  
Will you take me home I'm not so strong  
Don't you know I'm going home now  
Take me back where I belong  
I'll be there when there's no one around you I don't care what  
others say  
There's no other way to go so I believe in yesterday

I'll be there when there's no one around you  
I'll be there recall your name  
I'll be there when there's no one around you  
I can take you home for good  
I will be there yeah when no one else recalls your name  
I will be there for you 'cos my love remains the same  
'Cos my love remains the same...

I don't know if you still listen, all my words may fade to gray  
I can't change the way I'm feeling, holding on to yesterday  
I still feel the love you gave me, I've been searching for some  
way  
I can't change the way I feel I believe in yesterday

I'll be there when there's no one around you  
I'll be there recall your name  
I'll be there when there's no one around you  
I can take you home for good  
I will be there yeah when no one else recalls your name  
I will be there for you cos my love remains the same  
Cos my love remains the same...

Wherever you are  
Wherever you go  
Wherever you are  
No matter whenever no matter wherever

I'll be there when there's no one around you  
I'll be there recall your name  
I'll be there when there's no one around you  
I can take you home for good  
I will be there yeah when no one else recalls your name  
I will be there for you cos my love remains the same  
Out of thin air I'll be coming back to catch your fall  
I will be there for you  
I still hear your distant call  
I can hear your distant call
