

## Kiss U Miss U

Fiddler's Green

Alone with you, there comes a time  
That makes the change  
A change deep down inside of me  
Once I was blind  
Now every sense crawls back to life  
And like a new-born I can see

It takes no life to catch the bliss of happiness  
We long for moments that will last  
There comes a time  
When I'll be standing at your side  
A long day's journey into night

Those seconds are the rags of time  
But they will make you see  
Those moments never pass you by  
I store them, I hold them in me

Oh, I kiss you, miss you anyway  
Oh, I kiss you, miss you every day

There comes a time  
When I will find that precious love  
Comes a time when time will end  
There comes a time  
When we will dance the night away  
A time when we will not pretend

Those seconds are the rags of time  
But they will make you see  
Those moments never pass you by  
I store them, I hold them in me

Oh, I kiss you, miss you anyway  
Oh, I kiss you, miss you every day

Those seconds are the rags of time  
But they will make you see  
Those moments never pass you by  
I store them, I hold them in me

Oh, I kiss you, miss you anyway  
Oh, I kiss you, miss you every day

Oh, I kiss you, miss you anyway  
Oh, I kiss you, miss you every day
