Song For The Living

Fiddler's Green

What a glorious mess - shout out loud! Oh, waht a success - shout out loud! Won't miss all the fun, well begun is half done

Soak up the sun - shout out loud!

Walk on the wild side - we want more! Save your own hide - we want more! What comes down must go up, so haunt our pub Get off your butt - we want more!

And we sing a song for the living We won't give up, you won't give in Another glorious song for the buried and gone For all the joy they were giving

Feel frisky tonight - take a ride! Stand upright - take a ride! Kiss your demons goodbye, let a sleeping dog lie Never say die - take a ride!

And we sing a song for the living We won't give up, you won't give in Another glorious song for the buried and gone For all the joy they were giving

And we sing a song for the sinners
All buskers, rovers and saints
We'll be under the sod but a memory remains
It's all about boozers and winners

Sing your own praises -here's to you!

Don't trust empty phrases - here's to you!

Be the talk of your town, say farewell to the crown

Bring the house down - here's to you!

And we sing a song for the living We won't give up, you won't give in Another glorious song for the buried and gone For all the joy they were giving

And we sing a song for the sinners All buskers, rovers and saints We'll be under the sod but a memory remains It's all about boozers and winners

And we sing a song for the loosers
All buskers, rovers and saints
We'll be under the sod but a memory remains
It's all about winners and boozers
