

# Spin Around the World

Fiddler's Green

I woke up to the sound of a falling stone  
Didn't know if I was all alone

It's been a long time  
That I met myself  
Put my own mind on a dusty shelf  
There it was forgotten all the time  
There was no joy, there was no pain  
There was no risk there was no gain  
I stopped counting the days

But it's time to wake up now  
Cause I'm fading away  
It's high time to wake up now  
Will she make my...

Uh ah, Spin around the world I'm falling  
Uh ah, I'm wide awake  
Uh, ah, Spin around the world I'm falling down  
Will she make my day

Now you're here chasing all my fear away I pray  
Gonna stay with me  
To keep us alive  
Babe I want you to understand  
That you touch my soul when you take my hand  
So please don't you let go
