

Oh

FIDLAR

Come with me, my time has come  
Drive my car into the sun  
It's in my head, I'm drinking now  
But I don't need no (???)  
I won't go  
Believe, I believe that I want you to know  
I won't go  
Believe, I believe that I want you to know

I know  
I want you to know  
I know  
I want you to  
I know  
I want you to know

Come and steal my heart away  
Let's get high like my friends did  
Sittin' on the corner  
You'd think I'd go  
I'll never listen to you

I know  
I want you to know  
I know  
I want you to  
I know  
I want you to know

I won't go  
Believe, I believe that I want you to know  
I won't go  
Believe, I believe that I want you to know

I know  
I want you to know  
I know  
I want you to  
I know  
I want you to know
