

Oh

FIDLAR

Come with me, my time has come
Drive my car into the sun
It's in my head, I'm drinking now
But I don't need no (???)
I won't go
Believe, I believe that I want you to know
I won't go
Believe, I believe that I want you to know

I know
I want you to know
I know
I want you to
I know
I want you to know

Come and steal my heart away
Let's get high like my friends did
Sittin' on the corner
You'd think I'd go
I'll never listen to you

I know
I want you to know
I know
I want you to
I know
I want you to know

I won't go
Believe, I believe that I want you to know
I won't go
Believe, I believe that I want you to know

I know
I want you to know
I know
I want you to
I know
I want you to know
