

Shrooms

FIDLAR

You got the car, I got a guy
Just tell me how much I should buy
My homie just got off parole
I got this situation under control
Hopped in his car to get the stuff
One look at me, he called my bluff
We [?]
My body rolling on the ceiling floor

Oh, won't you take me to the river
I want to play in distant waters
Oh, won't you take me to the river
I want to play in distant waters

She came a quarter after two
By that time I couldn't move
The mystic shrooms[?] had took effect
My mind and body are disconnect
And then we moved into the bedroom
All I heard was sonic boom
We [?] and was surprised
It wasn't sex, it was TV on my mind

Oh, won't you take me to the river
I want to play in distant waters
Oh, won't you take me to the river
I want to play in distant waters
