

## Stoked and Broke

FIDLAR

I don't care if you think it's wrong,  
Washed out an attention score,  
I don't wanna go past the time  
With my face to the ground and I'm upside down.

I just wanna get really high,  
Smoke weed until I die,  
I don't ever wanna get a job,  
With my folks still today and nothing's wrong.

Get pissed up in the hills,  
Cocaine and shitty pills,  
Get high in a perfect car  
With the windows up and the lights turned off.

There's nothing wrong with living like this,  
All my friends are pieces of shit,  
Bust the chin on a party tonight  
Had another head turn from my head to my toes.
