

Test Your Reaction

Field Music

Feeling automatic
You drive as fast as you please

You're not a machine
But you are what you eat

I still feel too young
To start a conversation
I'm still coughing up blood
Just to test your reaction

Kids just can't get enough
Their teeth are sharper at night

You can try but you won't
Cos' it's not worth the fight

Choices to find
You do what you think's best

I continue the same
As almost everyone else

I still feel too young
To start a conversation
I'm still coughing up blood
Just to test your reaction

And you fell for it
Like you always do
Because you wanted to
And I want you to

I still feel too young
To start a conversation
I'm still coughing up blood
Just to test your reaction
