

# You Don't Need This Song (To Fix Your Broken Heart)

Fields

You should thank yourself  
You made a fine display  
Replace my plans with yours

Sing this song like another one  
'Cause they're all the same  
Giving you grief and pain  
And we try to get along without them

Sing this song like any other one  
'Cause they're all the same  
We gave up this grief and pain  
The second we got along without them

I will thank myself  
I made a fine display  
I place my hands in yours

Sing this song like another one  
'Cause they're all the same  
Giving you grief and pain  
And we try to get along without them

Sing this song like any other one  
'Cause they're all the same  
We gave up this grief and pain  
The second we got along without them
