

## So Long

Fifth Angel

Many years of my life I have been in search of,  
Someone to shelter from the cold.  
I may be a fool, standing waiting here forever,  
In those quiet eyes I know -

That' it's - So long I've been left too far behind  
So long to me.  
Cause it's - So long that I've almost lost my mind  
So long to me - I'm so tired of tryin'

There are those who stop and tell me who I'm best for,  
And that love will pass me by.  
But they'll fade away, and I continue searching,  
All my life -

That' it's - So long I've been left too far behind  
So long to me.  
Cause it's - So long that I've almost lost my mind  
So long to me...ahhhhh ohhhhhh...

[Guitar solo]

And it's - So long I've been left too far behind  
So long to me.  
Cause it's - So long that I've almost lost my mind  
So long to me - '

So long, So long, So long to me.  
So long, So long, So long to me.

[Outro guitar solo]

So long. So long, So long to me.
