

# We Rule

## Fifth Angel

Hey you - you know that I'm watching  
And I - know just what you do.  
We have power - we will rule your lives.  
Hey you - your dreams are no secret  
Cause I - can see in your mind  
Always hoping - fighting to survive

Over and over I hear the voices call -

We rule - the lords of the wasteland.  
We rule - the eyes of the underground  
We rule - the lords of the wasteland.  
We rule - the eyes of the underground.

Hey you, I feel your anger  
So, I will take you away.  
Hide your madness from those we control.  
And you, you lust for the power  
Cause I, am holding the keys  
(To) chains that bind you, tearing at your soul.

Over and over I hear the voices call -

We rule - the lords of the wasteland.  
We rule - the eyes of the underground  
We rule - the lords of the wasteland.  
We rule - the eyes of the underground.

We watch you, we see you,  
We'll tell you what is real.  
No running, nowhere to hide -

[Guitar solo]

We watch you, we see you,  
We'll tell you what is real.  
No running, nowhere to hide -

We rule - the lords of the wasteland.  
We rule - the eyes of the underground  
We rule - the lords of the wasteland.  
We rule - the eyes of the underground.

We rule - the lords of the wasteland.  
We rule - the eyes of the underground  
We rule - the lords of the wasteland.  
We rule - the eyes of the underground.

We rule.  
We rule  
Whoah oh oh oh
