

# Better Together

Fifth Harmony

When we were together  
We were just strangers  
I was just playing around  
So I didn't wanna work it out  
No, I didn't wanna work it out

Thought something was missing  
We were too different  
Baby I am looking back now  
And I really should've worked it out  
Yeah, I really should've worked it out

Because now that you're gone and I sleep alone  
I can't help it, I want you back, 'cause I

Boy I miss you  
Said I really do  
Boy I miss you  
Now I understand that we're better together  
Boy I miss you  
Said I really, really do  
Boy I miss you  
Now I understand that we're better together

We're better  
We're better  
We're better  
We're better  
We're better  
You know we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know we're better together

I'm watching you with her  
Thinking I had you  
How was I ever so dumb?  
Boy I should've known that you're the one  
Boy I should've known that you're the one

So if it's not too late  
I just wanna know babe  
Tell me if we could still run  
Cause I finally know that you're the one  
Yeah, I really know that you're the one

Because now that you're gone and I sleep alone  
I can't help it, I want you back, 'cause I

Boy I miss you  
Said I really do  
Boy I miss you  
Now I understand that we're better together  
Boy I miss you

Said I really, really do  
Boy I miss you  
Now I understand that we're better together

We're better  
We're better  
We're better  
We're better  
We're better  
You know we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know we're better together

Now that you're gone and I sleep alone  
I can't help it, I want you back, 'cause I

We're better  
We're better  
We're better  
We're better  
We're better  
You know we're better together  
We're better  
We're better  
We're better  
We're better  
You know we're better together

Boy I miss you  
Said I really do  
Said I really do  
Boy I miss you  
Now I understand that we're better together  
Boy I miss you  
Said I really, really do  
Boy I miss you  
Now I understand that we're better together

We're better  
We're better  
We're better  
We're better  
We're better  
You know we're better together  
We're better  
We're better  
We're better  
We're better  
You know we're better together
