## Write On Me

## **Fifth Harmony**

Pick up the pen, put it on the paper... (Write on my skin, bring me to life) Can't start again, there ain't no eraser All of my flaws, you got them so right!

Everything is blank until you draw me (Touching on my body like you know me)

Write on me... Color outside the lines Love the way you tat me up Baby take your time Write on me Give me some wings, I'll fly Love the way you tat me up I'll never change my mind Write on me, write on me Write on me, write on me (Write on me) Write on me (write on me) Write on me Love the way you tat me up Write on me...

You are my friend, straight and no chaser Burns going down but it keeps me alive Tell me the truth, I like the danger Cause in the end you will be mine

Everything is gray until you draw me Touching on my body like you know me

Write on me Color outside the lines Love the way you tat me up Baby take your time Write on me Give me some wings, I'll fly Love the way you tat me up I'll never change my mind Write on me, write on me Write on me, write on me (Write on me) Write on me (write on me) Write on me Love the way you tat me up Write on me

I could see a city sleep I could see an ocean wave Everything is changing and it's written on my face I could see a city sleep I could see an ocean wave Everything is changing and it's written on my face

Write on me Color outside the lines

Love the way you tat me up Baby take your time Write on me Give me some wings, I'll fly Love the way you tat me up I'll never change my mind Write on me, write on me Write on me, write on me (Write on me) Write on me (write on me) Write on me (Won't you write on me yeah) Love the way you tat me up Write on me Write on me Write on me (Write on me...)
