

If It Hurts

Fight or Flight

From every thought
To every step I take
To every meaning
I never thought
I'd be the one to break
Or be so needy

Are you the handful
The weak or the hopeful
Are you the tried
The freak or the noble

If it hurts to see
Then keep your eyes closed
If it hurts to think
Don't let your mind go

Do you feel controlled
Let somebody know

From every touch
To every last mistake
I faced the fire
I chased the love
I've broken up
And now I'm left the liar

If it hurts to see
Then keep your eyes closed
If it hurts to think
Don't let your mind go

Do you feel controlled
Let somebody know

No way

Are you the handful
The weak or the hopeful
Are you the tired
The freak or the noble

I won't take
No for an answer
No way [2x]

Do you feel controlled
Let somebody know

If it hurts to see
Then keep your eyes closed
If it hurts to think
Don't let your mind go [2x]

Do you feel controlled
Let somebody know [3x]
