

Breathe

Fight The Fade

Wide awake again tonight
Afraid to close my eyes
Far too much
On my mind

Just slow down
And give yourself some time
All you need to know now
Is I'm found in the silence

Just breathe

I just want to take a breath
If I could only shut down my head
Get just a little
Peace and rest

Just slow down
And give yourself some time
All you need to know now
Is I'm found in the silence

Just breathe

Just slow down
And give yourself some time
All you need to know now
Is I'm found in the silence

Just slow down
And give yourself some time
All you need to know now
Is I'm found in the silence
