

Cut Me Off (you Can't)

Fight The Fade

I hear what you're saying
But I don't care
'Cause all that you're saying
Falls on these deaf ears
And I can't explain it
Like someone's taken my eyes
And now what I'm seeing
Is you were stocked full of lies

So
You can't cut me off at my knees
You can't keep this love from me
You can't throw away what I've become
You can't hold me in my own prison

And I'm standing here open
So you can see inside
My resolve won't be broken
Already gave up my pride
Take this coin as a token
That you've had your time
So now get behind me
'Cause I made up my mind
