We march to the beat of a different drum We will fight We don't run Stand up, unified and joined as one It's not over We've just begun There's no stopping us now And there's no turning back This is! The moment we've been waiting for The time to strike The time for war This is! Unlike anything we've seen before Get your feet up off the floor! I see, the black clouds up in the sky They're breaking time to do or die We lift our banner of heaven high We will rise We will rise There's no stopping us now And there's no turning back This is! The moment we've been waiting for The time to strike The time for war This is! Unlike anything we've seen before Get your feet up off the floor! This is! The moment we've been waiting for The time to strike The time for war This is! Unlike anything we've seen before Get your feet up off the floor! It's our time to shine Join the battle lines It's our time to shine Join the battle lines It's our time to shine Join the battle lines It's our time to shine Join the battle lines This is!

The moment we've been waiting for

The time to strike
The time for war
This is!
Unlike anything we've seen before
Get your feet up off the floor!

This is!
The moment we've been waiting for
The time to strike
The time for war
This is!
Unlike anything we've seen before
Get your feet up off the floor!
