

Amethyst

Fightstar

She smokes like an amethyst
She's moving her way through my skin
She moves me
Cause east is the way I go
But nobody seems to notice
How I feel

Keep all the lights off
And I'll try to kill our past time
Just to find your heart
Please don't ignore me
Or I'll just fall asleep
And wake up when you're gone

This body only needs
To learn to feel the problem disappear
I froze with those plastic eyes
Cutting lose from upon this disguise

Keep all the lights off
And I'll try to kill our past time
Just to find your heart
Please don't ignore me
Or I'll just fall asleep
And wake up when you're gone

She smokes like an amethyst
She's moving her way through my skin
