Follow Me into the Darkness

Fightstar

I woke on the floor next to an empty bed Summer will come all in an afternoon Days come and go, like the weather it changes Come for the weekend and we'll sail away

You, you are never alone (2x)

Days spent in the rain Some people say its a shame that we Only get to live once But if you'd seen the things that I've seen..

Follow me, into the darkness And sink your fears into the night

I woke on the floor next to an empty bed In my dreams, there were monsters and what they said was, Follow me down, into a dark place Well come back and see me when I fall asleep

You, you are never alone (2x)

Days spent in the rain Some people says it's a shame that we Only get to live once but if you'd seen the things I've seen..

Follow me into the darkness And sink your fears, into the night
