

# Grand Unification, Pt. 1

Fightstar

Covered and coarse  
I could wait my turn  
Too pay them all back  
So Original,  
Let's take it all back  
You could hide but I won't, how do you know?

I can't believe it!  
Take it away!  
One look and you'll never leave,  
Cause this can't hold, us down.

If I wake up  
On my own  
If something happens  
Please come home  
Wake me up before you go.

If you never know  
It can never hurt  
As much as this does  
It's so original  
Let's make this all work  
You can run but I won't, how do you know?

I can't believe it!  
Take it away!  
One look and you'll never leave,  
Cause this won't hold us down.

If I wake up  
On my own  
If something happens  
Please come home  
Wake me up before you go on.

You can't hold us down  
This won't hold us down  
You can't hold us down

If you wake up  
On your own  
If something happens  
Please come home  
Wake me up before you go  
I hope you're happy on your own
