

Suck it up.

When you see the cold your eyes will take a bow,  
Oh I'm so sick of this skin it hurts my bones.

How am I supposed to understand the tests that you can beat,  
You're taunting me.  
I'm not fucking listening to you anymore,  
If you take this away from me now.

Suck it up now.

Now, I'm going to cast you over board. Why?

If you're listening don't come back,  
Until all the lights, glow away from our house.  
I hope you found what I buried there

How am I supposed to understand the tests that you can beat,  
You're taunting me.  
I'm not fucking listening to you anymore,  
If you take this away from me now.

Suck it up now.

Now, I'm going to cast you over board. Why?

Suck it up.

Now, I'm going to cast you over board. Why?
