

Waitin' for a Superman

Fightstar

I asked you a question
But I didn't need you to reply
Is it getting heavy?
But then I realize

Is it getting heavy?
Well, I thought it was already as heavy as can be

Is it overwhelming
To use a crane to crush a fly?
It's a good time for Superman
To lift the sun into the sky

Because it's getting heavy
Well, I thought it was already as heavy as can be

Tell everybody waiting for Superman
That they should try to hold on best they can
He hasn't dropped them, forgot them or anything
It's just too heavy for Superman to lift
