## Waitin' for a Superman

I asked you a question But I didn't need you to reply Is it getting heavy? But then I realize

Is it getting heavy? Well, I thought it was already as heavy as can be

Is it overwhelming To use a crane to crush a fly? It's a good time for Superman To lift the sun into the sky

Because it's getting heavy Well, I thought it was already as heavy as can be

Tell everybody waiting for Superman That they should try to hold on best they can He hasn't dropped them, forgot them or anything It's just too heavy for Superman to lift Fightstar
