

You and I
Will never make it out of here
Alive
Please just let us go insane
We're travelling where spiders lay eggs
With our heads above the waste
The water broke our fall
You and I
Will never make it out of here
Alive
You and I
Will never make it out of here
Alive
I can't carry on for long
I'll start to feel the pain again
Now the days are all the same
Losing sight and hold of home
You and I
Will never make it out of here
Alive
Cause there will come
A day when you silence
The crowds
And you and I
Will never make it out of here
Alive
It feels as black as the thoughts I had
When the road was as dark as my fears
And just take comfort in knowing that
All of this ends when I am done
Please just let us go insane
There's nothing to declare but ours
You and I
Will never make it out of here
Alive
Cause there will come
A day when you silence
The crowds
Because you and I
Will never make it out of here
Alive
