

## You & I

Fightstar

You and I  
Will never make it out of here  
Alive  
Please just let us go insane  
We're travelling where spiders lay eggs  
With our heads above the waste  
The water broke our fall  
You and I  
Will never make it out of here  
Alive  
You and I  
Will never make it out of here  
Alive  
I can't carry on for long  
I'll start to feel the pain again  
Now the days are all the same  
Losing sight and hold of home  
You and I  
Will never make it out of here  
Alive  
Cause there will come  
A day when you silence  
The crowds  
And you and I  
Will never make it out of here  
Alive  
It feels as black as the thoughts I had  
When the road was as dark as my fears  
And just take comfort in knowing that  
All of this ends when I am done  
Please just let us go insane  
There's nothing to declare but ours  
You and I  
Will never make it out of here  
Alive  
Cause there will come  
A day when you silence  
The crowds  
Because you and I  
Will never make it out of here  
Alive
