## **Day By Day**

**Figure Four** 

Standing there, life going nowhere

I can't believe this Wasting life, all this time You can't see the truth I know Call me ignorant, but I'm not alone I have faith in God and won't quit 'til the seed is sown I try to be a witness day by day Sometimes, it's hard With Christ's help I will spread the word Holding back I look into your eyes but I can't see the fire That you once possessed That you once knew Pride is why you're holding back Torn behind heart and mind A child lost, calling out In this world far from home
