Wake wake wake just a little
Skin and bones, oh so brittle
Clean clean clean my friends
Just to get all dirty again

Burn burn burn a little fire
Right in the eye of a loose snip liar
Back back back a little higher
Rolling and clinching, hanging from a wire

Burn burn burn, bring it down yea
Oh oh oh oh
Burn burn burn, bring it down yea
Oh oh oh oh
(2x)

Please please please upon your knees
Beg for dust or a little relief
Bleed bleed bleed I see
When you choke whisper and breeze

Cut cut cut just a little
Colored clipped, head full of riddles
Yea yea yea she looks around
She's always ours, she won't be found

Burn burn burn, bring it down yea
Oh oh oh oh
Burn burn burn, bring it down yea
Oh oh oh oh
(2x)

It's all blood we're drinking
Close your eyes and let it all begin
Now it's time we're over
Go against a second mind

Burn burn burn, bring it down yea
Oh oh oh oh
Burn burn burn, bring it down yea
Oh oh oh oh
(2x)
