## **Spent**

All my life All my time Oh it's got a price Oh gonna pay for mine I know you really care Oll my friends they got Old apathy in the brain They got no ideas in their heads They got no path that I can't see Don't you think that I don't blame them Don't you think that I can't shame them Don't you think that I don't want them Don't you think that I ain't one of them One of them I know you really care You're just another X
