Stuck in Here

Once again I'm stuck in here Once again I'm in low gear Once again I have a fear Once again I'm stuck in here

Hey just close the door Think back and just ignore Hey just close your eyes Think back and realize

Oh no, I'm stuck in here Oh no, still stuck in here

What makes you think that it's okay? Don't start it off don't relate Take the job but not the pay Forget the hours but not the day

Hey just close your eyes Think back and realize Hey just close the door Back up and just ignore

Oh no, i'm stuck in here
