I lost my taste for sin
It lives in my frustration
I lost my will to win
'Cause you're feeding my temptation

Woa woa woa, I don't miss it
Woa woa woa, yeah
Woa woa woa, I don't miss it
Woa woa woa

All of the secrets you kept
Secrets that trashed my reputation
You left it too hard to fix
From all your lies and manipulations
I'm gone
This finger's for you
I'm gone
This finger's for you

I bought myself some gin
I'm losing my religion
I drink it all within
I live with my decision

Woa woa woa, I don't miss it
Woa woa woa, yeah
Woa woa woa, I don't miss it
Woa woa woa

All of the secrets you kept
Secrets that trashed my reputation
You left it too hard to fix
From all your lies and manipulations
I'm gone
This finger's for you
I'm gone
This finger's for you

Play for me
Play for me now
Play for me
Going down

This, this, this
This finger's for you
This, this, this
This finger's for you

All of the secrets you kept
Secrets that trashed my reputation
You left it too hard to fix
From all your lies and manipulations
I'm gone
This, this, this
This finger's for you
I'm gone
This, this, this

This finger's for you
