

New Wave

Finch

Roll your streetcar baby
Who is next in line?
Your glitter shimmers
Despite diamond eyes

We're on a new wave
Neon skies
The cool air soothes me
As we drive

Downtown the crowds are flashing lights
Electrify the stride of a darkened sky

We're on a new wave
Neon skies
The cool air soothes me
As we drive

Let's try tonight
It's right tonight
I could die tonight
So let's try tonight
