

Us vs. Them

Finch

Behind the wheel, they disappear
I feel an ocean of belief
Something moving me
In for the kill
This heart beats still
Rolling over
Time, he's older
Tell me how you feel

You say we're alien
It's cult emphatic
Wrapped in static
We'll play one more song
Until we are disconnected
No direction home

Closer now
Don't lose your nerve
When it's over, they will know
Just what they deserve
I'll be waiting on the other side
Now we're older
Rolling over
Tell them how we tried

We don't belong
We're alien
It's cult emphatic
Wrapped in static
We'll play one more song
Until we are disconnected
No direction home

Now it's raining
It's coming down
Colors changing
In your crown

We don't belong
We're alien
It's cult emphatic
Wrapped in static
We'll play one more song
Until we are disconnected
No direction home
