Drag You Down

Finger Eleven

It's biting, it's teething, it's biting, I'm bleeding It's calling, it's crawling, it's calling and I'm falling

The perfect sound of middle ground Pull me under before I try to drag you down Someone has to pull me under before I try and drag you Drag you, drag you down

They're fighting, they're growing They're fighting and they're growing I'm biting, I'm teething, I'm biting, they're bleeding

The perfect sound of middle ground Pull me under before I try to drag you down Someone has to pull me under before I try to drag you Drag you, drag you down

Biting and teething and bleeding

Pull me under before I try to drag you down Someone has to pull me under before I try to drag you down Someone has to pull me under before I try to drag you down Someone has to pull me under before I try to drag you Drag you, drag you down
