

## Famous Last Words

Finger Eleven

My last words to you, I think I might romanticize  
Don't think I'd be satisfied  
If all I said was goodbye  
My last words to you, don't come out as time goes by  
I think you said thank you  
Or I might have said see you around

But hey?  
What the hell's the difference anyway?  
I never could find the right words to say  
You always made me speechless anyway  
Words that lurk me to this day

No you never heard any famous last words  
No!

Not much more I can do ..not all
