

Famous Last Words

Finger Eleven

My last words to you, I think I might romanticize
Don't think I'd be satisfied
If all I said was goodbye
My last words to you, don't come out as time goes by
I think you said thank you
Or I might have said see you around

But hey?
What the hell's the difference anyway?
I never could find the right words to say
You always made me speechless anyway
Words that lurk me to this day

No you never heard any famous last words
No!

My last words to you, don't come out as time goes by
I think you said thank you
Or I might have said see you around

But hey?
What the hell's the difference anyway?
I never could find the right words to say
You always made me speechless anyway
Words that lurk me to this day

Not much more I can do ..not all

No you never heard any famous last words
No!
No you never heard any famous last words
No!

Not much more I can do ..not all
On, on and on

No you never heard any famous last words
No!
No you never heard any famous last words
No!
No you never heard any famous last words
No!
No you never heard any famous last words
No!
