## **Stay and Drown**

## **Finger Eleven**

Good God, have I been dreaming This paralyzing feeling? Was I left alone? Where have you gone? Were you somewhere else just sleeping?

If I wait to wake you I'll never ask you

Would you take my hand in the deepest end Would you stay and drown in me? Take my hand in the deepest end My open eyes see everything

But I'm passing all the days Through a window pane And as the scene would change I'd stay the same

This paradise was nothing new But the paradise gets tired of you A single conversation Stole my attention

Would you take my hand in the deepest end Would you stay and drown in me? Take my hand in the deepest end Would you stay and drown in me?

My open eyes see everything And you see nothing And don't forget it

Take my hand in the deepest end Would you stay and drown in me? Take my hand in the deepest end Would you stay and drown in me?

Take my hand in the deepest end Would you stay and drown in me? Would you stay and drown in me? Would you stay and drown in me?
