When we, spoke we, knew it wasn't over When I, spoke I, know it tortured us both Two days later, two days later and calm The love we, feel for, each other will destroy Futures, we could, have with other people Two days later, two days later and calm

Now we know where we are, where we stand and where we fall Yeah we know who we are, where we stand and where we fall Apart apart apart apart apart apart

How I, wish that, everything was different
No eye, contact, contact is forbidden
Two days later, two days later and calm
Couldn't just leave it, couldn't leave it hidden
Doe-eyed highlights, is that all we're given
Two days later, two days later and calm

Now we know where we are, where we stand and where we fall Yeah we know who we are, where we stand and where we fall Apart apart apart apart apart apart

Now we know where we are, where we stand and where we fall Yeah we know who we are, where we stand and where we fall Apart apart apart apart,
Apart apart apart
Two days later
Two days later and calm
