

## Warm Shadow

Fink

What you got going on?  
High notes, eyes closed, holding on  
And I don't want another day to break  
Take our, steal our night away

Warm shadow  
Warm shadow  
Won't you cast yourself on me?

What you got in store for me?  
Keep those, eyes closed next to me  
And I don't want another day to break  
Take our, steal our night away

Warm shadow  
Warm shadow  
Won't you cast yourself on me?

Won't you stop breaking in?  
Red sky, red light, awakening  
And I don't want another day to break  
Take our, steal our night away
