

# Grief

Finley

Greetings from me to all my friends  
To my girlfriend and my parents  
I'm leaving this town  
I can't forget to say goodbye  
I can't forget the laughs and cries  
The moments I spent  
That's nothing to weep about  
The rain's starting to pour down  
Here the time's slipping away  
I don't pretend I'm OK

[Chorus]

Grief is preying on my mind  
So let me stay (let me stay)  
By myself  
Grief is preying on my mind  
I'm going away (going away)  
By myself

Maybe things are gonna change  
But my memories won't get last  
Like leaves in the wind  
I don't need your sympathy  
This bitter world owes me a new life  
This one's burned with me  
Fuck this place that's killing me  
My pillow drown in my tears  
Dark angels dangle round me  
Today's my expiration date

[Chorus]
