

Make up your own mind

Finley

Walking through the contradiction way
In a world where for fashion your friend's gay
You must try to be yourself
Everyday and every night
Live your life like a daily fight
To get what you think is right for you
I believe in what I said
Can't you see it's alright?
All around
Nobody hears your voice
Nobody hears you make this noise
Make up your own mind
All around
No one can label you
Nobody can judge what you do
Make up your own mind

People could say you're a freak
Please don't care they make you sick
Keep on doing what you want to do
Like your father last year said
During the thanksgiving day:
'Fuck' em all, don't give a shit of them'
I believe in what I said
Can't you see it's alright?

All around
Nobody hears your voice
Nobody hears you make this noise
Make up your own mind
All around
No one can label you
Nobody can judge what you do
Make up your own mind
