Nevermind the reason, you may never know Blame it on the seasons, they come and go Blame it on the weather, something in the wind Blame it on whatever, it might have been

You can say you know what happened You can say that I was wrong You can say most anything you want to You can say... I just say so long, so long, so long

Say it doesn't matter, say it's all for fun Nevermind the laughter, that doesn't come Tell yourself you hate me, tell us all your side Tell your friends I'm crazy, it'll save your pride

You can say you know what happened You can say that I was wrong You can say most anything you want to You can say... I just say so long, so long, so long

So long, so long... I just say so long Call it fact or fiction, blame it all on me Speak of your conviction in destiny Say it's not important, you can swear it's all a game Call it fame or fortune, but it's all the same

You can say you know what happened You can say that I was wrong You can say most anything you want to You can say... I just say so long, so long, I just say so long

(You can say you know what happened)
You can say that I was wrong
You can saw most anything you want to

You can say, you can say, you can say...

I just say so long
(You can say you know what happened)

I just say so long
(You can say you know what happened)

I been wrong before
(You can say you know what happened)

Does it really matter, oh

You can say you know what happened
