

Action

Fireflight

So many hurting people
Without a leg to stand on
They're reaching out every day
We all like to stare
And we pretend we care
How can we keep on doing nothing?

Can anybody hear me?
Can anybody see me?
Does anyone really understand?

We're looking for some action
We need something to happen
No more wasted nights and days
We're looking for some action

Hey, can you hear them crying?
Will you refuse to listen?
Maybe you have no time
Why would you rather stay
Where its warm and safe
When you've got everything to offer?

Can anybody hear me?
Can anybody see me?
Does anyone really understand?

We're looking for some action
We need something to happen
No more wasted nights and days
We're looking for some action

Can anybody hear me?
Can anybody see me?
Does anyone really understand?

We're looking for some action
We need something to happen
No more wasted nights and days
We're looking for some action
