

# All I Need To Be

Fireflight

Hoping with each new day  
I'm moving forward, I push the fear away  
And I let go  
'Cause I'm so through with barely hanging on  
Leaving what's in the past behind  
I come closer to crossing over the line  
And I won't stop  
Until I get what I've been fighting for  
You've said it all before

Tell me again that I am strong  
Tell me again that I won't fall  
I need You here to fix me where I'm wrong  
Take me beyond what I can see  
Break me, make me believe  
You have made me all I need to be

Knowing all that I can do is be open when You start to move  
In my heart  
And now my God, I finally hear Your voice  
You've said it all before

Who I am is all I've got  
And I can't be who I am not anymore

(I am strong, make me believe)  
You have made me all I need to be  
(I am strong, make me believe, make me believe)
