

# Fire In My Eyes

Fireflight

Feeling solid cause I've finally  
Got my feet on the ground now  
You rescued me with gravity  
I was upside down  
(down)

I've got a fire in my eyes  
I'm burning brighter than the sunlight  
You orchestrated my escape  
Now I'm awake  
I feel alive for the first time  
You ignite the fire in my eyes

Used to live my life locked up  
Inside a room with no doors  
(before)  
You found a window, You broke it  
And now I won't be contained anymore

I've got a fire in my eyes  
I'm burning brighter than the sunlight  
You orchestrated my escape  
Now I'm awake  
I feel alive for the first time  
You ignite the fire in my eyes

Oh, I know You are the reason I can breathe  
Oh, I know You are the reason I am free

I've got a fire in my eyes  
I'm burning brighter than the sunlight  
You orchestrated my escape  
Now I'm awake  
I feel alive for the first time  
You ignite the fire in my eyes
